

The New [Malefactors](#)

By Hal Mitchell

My wife loves to watch criminal investigation programs on television. Some of her favorites are Criminal Minds, CSI New York, and [Law and Order](#). My favorite is [Blue Bloods](#). There is one very noticeable thing they all have in common, however, and that is the description of the bad guy or "[Malefactor](#)". Here is a pretty accurate description of this character: 1) White with Anglo name 2) Blue eyed and blonde haired (I always look for the one with the blues eyes and invariably he or she will be the bad guy) 3) Businessman or Corporation and 4) Christian Conservative, if possible. This is who the malefactor will not be: 1) Hispanic 2) Black 3) Muslim or any other minority or 4) A dark eyed person. Click "[Beautiful Brown Eyes](#)" by Rosemary Clooney for an old song about brown eyes vs blue eyes.

Blue eyed Russians are especially acceptable criminals. Among these TV programs Law and Order is the worst at choosing a blue eyed criminal. They often do several close ups so you can see the bad guy's blue eyes. I was surprised this week when even Blue Bloods had a blue eyed malefactor. This just didn't begin yesterday. Anybody remember the blue eyed bigot, [Archie Bunker?](#)

As Andy Rooney used to say, "Now why is that?" Let me give you my theory. Actually, it is more than a theory. It is more like a proven statistical fact. Almost all the writers and producers of these shows are typical Hollywood Liberal/Socialists. They want to project upon the unsuspecting viewers their own bias against us blue eyed, white, Anglo Capitalists. They think that the average viewer will be so caught up in their "great unsolvable mystery" that we will not notice their bias. Au Contrare, Mon Ami, I, and thousands of other discerning Anglo Capitalists, have noticed. Consequently, I have decided to "out" them. Haaa!

In addition, when liberals want to invoke their version of equal opportunity they use the term "It ought to look like America" and then they put in their version of what America looks like. Actually, it is what they want America to look like. Click [Demographics](#) and you will see that America is still comprised of nearly 80% white people. FYI: if professional sports teams were forced to fit this liberal matrix they would have to fire 80% of their non white players.

Then there are, as Rush calls them, "The New Castrotie" or [emasculated](#) male actors who always have female bosses. The [Mentalist](#) is a prime example where the main character, Patrick Jane, is subservient to the head of the unit, Teresa Lisbon. He doesn't even carry a gun, a concession to the anti-gun lobby. Also, whenever a program calls for a judge he or she is almost always a minority and often a female.

There used to be a Philosophy Professor at the University of Colorado who had a favorite question he asked his students and it was "Is credit do to [benefactors](#)?" So I will ask "Is credit due to [malefactors](#)?" If he is a blue eyed Anglo, the answer is "yes!" Now go out and take a stand against this unfair characterization of my Anglo brothers. You could just hit the off button and wait for the [Neilson](#) survey.
